SITARAM SPINNERS

Sitaram Spinners Pvt. Ltd. has a profound origin rooted in the vision and determination of Mr. Gautam Ganeriwal. Initially established as a part of the esteemed **MS Agarwal Group**, our journey began in the steel industry in the 1990s. In 2006, Mr. Gautam Ganeriwal, after completing his studies, embarked on a mission to diversify our business and create substantial employment opportunities within India.

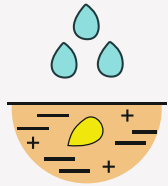

Faced with challenges in profitability within the spinning mill sector, Mr. Ganeriwal explored avenues for improvement. It was during a visit to the ITMA exhibition in Barcelona, Spain, where he encountered the success story of Texhong, a global leader in textile manufacturing.

Texhong's proficiency in core-spun spandex yarn intrigued Mr. Ganeriwal, leading to a pivotal decision for SSPL to venture into this domain.

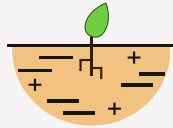

Driven by determination and resilience, SSPL ventured into the manufacturing of core-spun spandex yarn, without prior technical expertise. Over time, we not only mastered this technology but also expanded our operations significantly. Our efforts have contributed to transforming India from a net importer to a net exporter of core-spun spandex yarn, thereby saving millions in import costs.

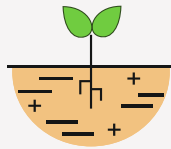

MILESTONES

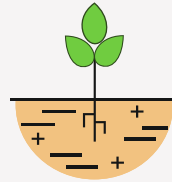

**Inception of SSPL
&
Unit 1 –
April 2008**

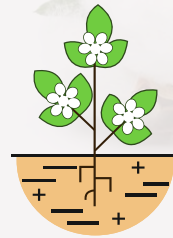

**Production
Commenced for
Unit 2 –
November 2011**

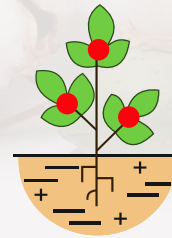

**CSY Attachments
Installation –
October 2012**

**Production
Commenced for
Unit 3 –
May 2020**

**Venturing in to
Blended CSY
Production –
September 2022**

**Expansion
Planned for
Unit 4 –
January 2024**

Vision

**To become the global leader in
Smart Textiles, delivering value to
all stakeholders**

Our Values

Integrity

- Keep promises and honour agreements
- Act ethically and responsibly
- Communicate openly, honestly and responsibly to build trust

Respect for People

- Treat everyone as a unique individual
- Treat all people fairly without discrimination, with dignity and respect
- Recognise everyone's contributions to our success and provide them with developmental opportunities

Teamwork

- Get rid of boundaries, barriers and bureaucracy to facilitate productive efforts
- Share knowledge and information
- Contribute to one and another's success

Continuous Improvement

- Think constructively to challenge the status quo
- Have an openness to ideas from anywhere and constantly maximise output, efficiency and quality

Stakeholder Delight

- Understand and anticipate stakeholder's needs
- Proactively exceed their expectations

PRODUCTION CAPACITY

Total Spindles – 83840

Total Rotors – 4032

Total TFOs – 13

Ring Yarn Production/Day : 60–70 mt.

Open End Yarn Production/Day : 25–30 mt.

PRODUCT PORTFOLIO

OUR MAIN PRODUCT RANGE

1. OPEN END Yarn : Application: Weaving/Knitting | Count Range: 10-30
2. CORE SPUN : Application: Weaving | Count Range: 10-42
3. CORE SPUN SLUB : Application: Weaving | Count Range: 10-42
4. ELI TWIST : Application: Weaving | Count Range: 2/30-2/40
5. ZERO TWIST PVA : Application: Weaving | Count Range: 2/20-2/30
6. TFO YARNS : Application: Weaving | Count Range: 2/30-2/40

SPECIALTY YARNS

1. DUAL CORE YARN
2. HIGH STRETCH YARN (3D MAX)
3. DENIM BLUE RECYCLED PC (50/50 - 75/25) Open End Yarns: Application: Weaving | Count Range: 07-20
4. BLEACHED RECYCLED COTTON Open End Yarns: Application: Weaving | Count Range: 07-20

VALUE ADDED PRODUCTS

1. PC (65/35, 52/48, 45/55, 40/60) CORE SPUN : Application: Weaving | Count Range: 10-40
2. PC SLUB (65/35, 52/48, 45/55, 40/60) CORE SPUN : Application: Weaving | Count Range: 10-40
3. POLY CORE SPUN : Application: Weaving | Count Range: 10-40
4. POLY SLUB CORE SPUN : Application: Weaving | Count Range: 10-40
5. PV (65/35, 50/50) CORE SPUN : Application: Weaving | Count Range: 10-40
6. PV SLUB (65/35, 50/50) CORE SPUN : Application: Weaving | Count Range: 10-40
7. VISCOSE CORE SPUN : Application: Weaving | Count Range: 20-40
8. VISCOSE SLUB CORE SPUN : Application: Weaving | Count Range: 20-40

TECHNOLOGY & INNOVATIONS

At SSPL we follow new developments in the textile world and adapt new technologies to cater our customer with new products & the best quality. Technology is the tool to turn a big idea into innovation, connect with the world, and lead it towards progression. Here is the a brief summary of our usage of technology:

- ✓ Trutzscheler & LMW blow room & Preparatory lines
- ✓ Contaminations control at blowroom and Autoconers
- ✓ Autoblend Equipped blowroom line for high control on blending
- ✓ Our 98% ring frames are equipped with auto doffer facility
- ✓ About 70% capacity is with link coners
- ✓ All ringframes are equipped with spindle monitoring systems.
- ✓ Roving transport system
- ✓ Slub attachments from Amsler & Pinter
- ✓ Eli Twist, Air Compacting & Green Compacting spinning systems
- ✓ SIRO CSY & TFO CSY yarn facility.
- ✓ High Quality Twin Disc Splicer from Savio for splicing of critical CSY yarns
- ✓ Auto packing facility for final packages.

QUALITY CONTROL : Our aim is to deliver the best quality so our lab is equipped with advanced testing equipment's from Uster e.g UT-5, UTR-4, AFIS PRO etc. to monitor the quality from Raw material till final packages.
